**REQUEST TO BE ACCORDED SPECIAL CASE STATUS**

Mail Stop: Patent Application  
Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

Applicant respectfully requests that the subject patent application be accorded "Special Case" status for expediting the prosecution of this patent application. This request is based on the fact that the subject application is a Divisional of application Serial No. 10/719,363, filed November 20, 2003, now U.S. Patent No. 6,681,120, whereby on March 20, 2005 this application has an effective pendency of five years. As set forth in MPEP §708.01(l) a patent application shall be considered a special case and "advanced out of turn for examination" when the application has been pending more than five years "including those which, by relation to a prior United States application, have an effective pendency of more than five years." Thus, this application will become a "special case" in less than six weeks.

Moreover, applicant has filed in the parent application to this application a PETITION TO MAKE SPECIAL UNDER 37 CFR §1.102(c) based on the inventor being at least 65 years old. A copy is enclosed herewith. Pursuant to MPEP 708.02(iv) the inventor's age of at least 65 years qualifies this patent application to be made a special case and no fee is required for such a petition.

Respectfully submitted,

FULBRIGHT & JAWORSKI LLP
